**Subject: Ohio EPA Review and Concurrence  
Final Focused Feasibility Study, August 31, 2017 for East Troy Contaminated  
Aquifer Site, Troy, Miami County, Ohio**

Dear Ms. Kolak:

On August 31, 2017, the Ohio Environmental Protection Agency (Ohio EPA) Division of Environmental Response and Revitalization (DERR) received the Final Focused Feasibility Study, submitted by SulTRAC on behalf of U.S. EPA, for the East Troy Contaminated Aquifer Site located in Troy, Miami County, Ohio.

Upon Ohio EPA review and in consultation with Mike Proffitt, DERR Chief, we hereby concur with the document. Our concurrence is with the understanding that the frequency of sampling of the sub-slab depressurization systems under Ohio EPA-funded operation and maintenance (O&M) will be determined by Ohio EPA. O&M of the sub-slab depressurization systems will be determined in the O&M Plan and will be conducted in accordance with relevant guidance and as necessary for the protection of human health.

If you have any questions, please contact me at (937) 285-6456 or [Madelyn.Adams@epa.ohio.gov](mailto:Madelyn.Adams@epa.ohio.gov).

Sincerely,

A handwritten signature in black ink that reads "Madelyn Adams". The signature is written in a cursive, flowing style.

Madelyn Adams  
Site Coordinator  
Division of Environmental Response and Revitalization
